

What Does This Mean?

The events of September 11, 2001 have changed the world. The "War On Terror" has been used to convince people to give up their freedoms in exchange for "security." 9/11 was the pretense for the current geo-political landscape. It is akin to the *Reichstag fire* that allowed Hitler to grant himself dictatorial powers, and led to the rise of the Third Reich. **The intention of the "War On Terror" is to incite fear in the minds of the people**, and to that end it has done a horrifically good job, no pun intended.

What Do I Do Now?

STEP ONE: *Realize that fear is an illusion.* Fear is a tool perpetuated by religion and the political system to keep societies under control. Don't worry about "Big Brother" or the intimidation tactics used to keep people from rising up. Ask questions, get in the way, and **don't back down** in your march to know the truth about everything.

STEP TWO: *Educate yourself.* We must not trust the Main Stream Media. To stay in business, they must tow the political line. Almost all major headlines coming from the Main Stream Media have been filtered by agents of the political elite. We must turn more and more to **alternative media** as our source of news.

STEP THREE: *Educate others.* Don't be afraid to engage people of all colors, creeds, and ages in your search for truth. Make a blog, a newspaper, a radio show, a mailing list, or a discussion group. Print flyers, copy DVDs, and pass them out. The most important thing is that we, as a people, **get active** in our search for truth!

Information Overflow

One of the most difficult things to do in this information age is sift through and sort the good information from the bad. The **burden of proof** is shifted from the journalist to the layperson. There is as much misinformation as there is reliable, but we have tried here to list what we consider to be some of the best and most well-documented news sources to help you begin your search for truth.

Good luck.

11 Remarkable Facts About 9/11

Notice the "crimp" or sagging towards the center of WTC7. This is a classic sign of controlled demolition.

1) **The Mysterious Collapse of World Trade Center Building 7.** It is commonly known that the Twin Towers fell on 9/11, but did you know that a **third** World Trade Center high-rise building also fell that day? WTC Building 7, a 47-story steel-framed skyscraper located one block (approximately 100 meters) from the Twin Towers was not hit by any plane, but collapsed at 5:20 that evening, imploding in the exact manner of a professionally engineered demolition. It fell suddenly, straight down, at near freefall speed, and landed in a compact pile of rubble, barely damaging any of the surrounding buildings. These are but a few of many characteristics of Building 7's collapse that are **consistent only with controlled demolitions.**

Furthermore, the leaseholder of the three buildings, Larry Silverstein, said in 2002 on PBS that on the afternoon of 9/11 he suggested to the NYC fire department commander that they "pull" WTC 7. "Pull" is an industry term that means "demolish," but it normally takes a team of skilled people many weeks to design and implement large demolitions. Astonishingly, there is **no mention** of WTC Building 7's remarkable collapse in the 571-page 9/11 Commission Report.

Squibs, or blasting caps used to set off high explosives, can be seen exploding from the sides of all 3 buildings as they fell.

2) **Fire has never — prior to or after 9/11 — caused any steel frame building to collapse.** The sudden, vertical, explosive, and total collapse of the Twin Towers at near freefall speed can **only be explained by controlled demolition.**

2004 - Caracas, Venezuela. A 56-story steel-framed building burns over 26 floors for 17 hours without collapsing.

3) **The WTC steel**, which if fully examined could have **revealed the effects of explosives**, was quickly shipped overseas and melted down. This was an unprecedented **violation of federal crime scene laws.**

4) **Whenever contact is lost** with any airplane, fighter jets routinely take to the air to investigate. This commonly occurs about 100 times per year in well **under 20 minutes.** But on 9/11 **nearly two hours** passed without any interception.

5) **The Secret Service broke established protocols** by allowing President Bush to remain in a well-publicized classroom "photo op" long after it was known that the U.S. was under attack and he might well have been a target.

6) **Unidentified insiders made millions** on the stocks of American and United Airlines and those of other corporations that were likewise impacted by the attacks. These **"put option" bets were made just prior to 9/11.**

7) **There were warnings of the impending attacks** from at least eleven other countries. Also prior to 9/11, insiders such as John Ashcroft, top military officers, and Mayor Brown of San Francisco were **warned not to fly.**

8) **In September of 2000**, a group of neocon hawks, many of whom would become key officials in the Bush administration, wrote that their proposed massive military buildup would proceed slowly **"absent some catastrophic and catalyzing event — like a new Pearl Harbor."**

9) **Some of the alleged 9/11 "suicide hijackers" are still alive and well**, according to *BBC* and *The Guardian*. At least five of the alleged hijackers may have trained at U.S. military bases, as reported in *Newsweek* and other sources.

Even *BBC* reports that many of the 9/11 "hijackers" are still alive. If these men are still alive, why would the FBI to this day list them in official reports.

10) **The Bush administration resisted the formation of the 9/11 Commission** for 441 days. Similar investigations, such as those for Pearl Harbor, the JFK assassination, and the space shuttle disasters, all **started in about one week.**

11) **"The Jersey Girls" — four courageous 9/11 widows — finally forced the 9/11 Commission into existence** and presented many questions, most of which were ignored. Under the leadership of Bush administration insider Philip Zelikow, the final report **failed to address any of the evidence** pointing to official complicity.
