Mr. Richard Fobes

Dear Mr. Fobes:

Thank you for contacting me with your ideas regarding government declared state of emergency. I appreciate hearing from you.

It is very helpful to me to hear from constituents across the state on the issues that matter most to them. Your suggestions are thoughtful and deserve further consideration.

My staff will review your correspondence and keep it in mind in case this issue is considered further in the Senate. Many of the bills I have introduced during my time in Congress have originated from ideas sent to me by constituents.

Again, thank you for sharing your thoughts. Please feel free to contact my office again about issues before the United States Senate.

Sincerely,

Richard J. Durbin
United States Senator
