

# **Explosive Evidence: A Call for Truth Over Treason**

## **Stop War by exposing the 9/11 Cover-up**

Misprision of felony or treason is the 'offense of concealing knowledge of a felony or treason by one who has not participated or assisted in it.' The Constitution of the United States, Article III, defines treason against the United States to consist only in levying war against them, or in adhering to their enemies, giving them aid or comfort. The events of September 11 was described as an act of war by President Bush, and used to justify expanding the war in Afghanistan by President Obama. These administrations are perhaps guilty of criminal acts or treason, based on the following evidence of a cover-up and misuse-distortion of the actual events of September 11, 2001.

**Misprision of treason** - Whereas, US code 18 (Sec. 2382) - Misprision of treason, - states: "Whoever, owing allegiance to the United States and having knowledge of the commission of any treason against them, conceals and does not, as soon as may be, disclose and make known the same to the President or to some judge of the United States, or to the governor or to some judge or justice of a particular State, is guilty of misprision of treason and shall be fined under this title or imprisoned not more than seven years, or both." It follows that anyone who has knowledge of treason or a crime in the events of September 11, 2001, or obstruction of justice against the United States, has a responsibility to notify the stated authorities. Therefore, the undersigned citizen of the United States of America, in accordance with the law pertaining to Misprision of felony or treason, agrees to file the following evidence to "some judge of the United States, or . . . governor or . . . judge or justice of a particular State."

### **Evidence of Treason**

The National Institute for Standards and Technology (NIST) reported that World Trade Center 7 collapsed due to fire damage. If that is the case, it would be the first steel-framed skyscraper in history to undergo total collapse from fire alone. The fact that NIST refused to even consider explosive demolition when it is the most likely hypothesis and fits all of the available evidence is, in and of itself, grounds for suspicion of a cover-up. Fire doesn't pulverize 90,000 tons of concrete to powder. Explosives do. Crucial evidence from the World Trade Center crime scene, including most of the steel from WTC 1, 2 and 7, was deliberately shipped away and destroyed before it could be properly examined.

The Twin Towers collapsed too rapidly and with too much violence for the NIST explanation to be even remotely valid; the temperatures attained during the destruction were much too high; the acceleration of the buildings during their collapses was much too smooth. Well over one hundred first responders witnessed explosions at the on-set of the collapses. Small chips of nano-thermitic composite materials – a highly sophisticated explosive, has been found and documented by an international team of scientists in large quantities in the dust of the debris at the World Trade Center.

This work is published in Open Chemistry/Physics Journal, "Active Thermitic Material Discovered in Dust from the 9/11 World Trade Center Catastrophe." One of its authors, Niels H. Harrit in a German interview in May 2009, said: "There are no experts on nano-thermite without connections to the military.... This stuff has only been prepared under military contracts in the USA and probably in bigger allied countries. This is secret military research...It was not prepared in a cave in Afghanistan."

(over)

Senior Counsel for the 9/11 Commission, John Farmer, disclosed in his book, The Ground Truth “...at some level of the government, at some point in time...there was an agreement not to tell the truth about what happened... I was shocked at how different the truth was from the way it was described .... The [Norad air defense] tapes told a radically different story from what had been told to us and the public for two years. This is not spin.” Whenever contact is lost with any airplane, fighter jets routinely take to the air to investigate. This commonly occurs about 100 times per year in well under 20 minutes. But on 9/11 nearly two hours passed without any interception.

There were also warnings of the impending attacks from other countries; plus insiders such as John Ashcroft, top military officers, and San Francisco Mayor Willie Brown were warned not to fly. Additional evidence of foreknowledge came from insider trading. Shortly before 9/11, tens of millions that were made by Put options on American Airlines show 99% probability of illegal insider trading.

Evidence meant to implicate 19 Arabs as hijackers of four planes (passports, business cards, and so on) alleged to have survived the fiery plane impacts is not credible and suggests a staged crime scene. Furthermore, since seven alleged hijackers were housed on US military bases, two lived with an undercover FBI agent, and many others, like alleged flight 93 pilot Ziad Samir Jarrah, were brought over to flight school in Florida by CIA agents, we must conclude that the training was part of a cover story concocted by US intelligence, and that most of these 9/11 alleged hijackers were NOT involved, or were unwitting patsies, to say nothing of the nine who showed up still alive AFTER 9/11. Hundreds of contradictions exist that were omitted in the official version.

I, \_ \_ the undersigned citizen of the United States, affirm the duty and right of all citizens of these United States of America to take action in accordance with US Code 18, Section 2382 on Misprision of felony (treason), and affirm that I have or will soon discharge my duty and right under its provisions, and affirm that the officials so informed are required to act in a manner honoring their sworn oaths to uphold and protect principles of the US Constitution.

Signed on this date \_\_\_\_\_ by \_\_\_\_\_
